

BMP 004-S2 - 2 SHELF TRANSIT TROLLEY

The Transit Trolley is easy to push and manoeuvre, perfect for carting and moving items around your warehouse.

The 125mm diameter castor wheels offer easy swing movement. The trolley can support up to 400kg offering the strength of full steel construction.

It can be fitted with rubber mat decking, a safety lip surround frame or a clipboard attachment as optional extras.

The transit trolley is fully Australian made to Australian quality standards.
