

Forklift Adjustable Swing Jib

Product Code: BMP002

Convert your forklift for some intense lifting

Manoeuvre items in confined spaces using your forklift with Bremco's Forklift Adjustable Swing Jib.

Multi-angle positioning allows extra height and load capacity and is easy to set using the 4 stage locating pin. Ensure the net lifting capacity remains at 0.8 times your forklift capacity to allow for a swinging load.

We can also custom fabricate a forklift adjustable swing jib for your specific requirements. Read more about how we can work with you to develop the ideal custom steel fabrication solution for your warehouse.

Keep your workplace safe and operating effectively with Bremco forklift attachments.
