

Forklift Carpet Pole (Slip On Attachment)

Product Code: BMP012

Use your forklift to reach new heights.

Keep your tyres and move your long rolls with the Bremco Forklift Carpet Pole (slip on attachment). Forklift carpet prongs are the ideal way to handle carpet rolls, artificial turf, set up exhibitions or transport fabrics, cable, coil or steel + poly pipe.

As a slip on attachment, our Forklift Carpet Pole removes the need for fork tyre removal and is made of high tensile steel.

We can also custom fabricate a forklift carpet pole for your specific requirements. Read more about how we can work with you to develop the ideal custom steel fabrication solution for your warehouse.

Keep your workplace safe and operating effectively with Bremco forklift attachments.
