

Forklift Tipper Bin – NS Style

Product Code: BMP015-NS

Made in our Australian Factory

The Forklift Tipper Bin NS allows you to dump your bulky general paper waste.

This unit is considered light duty and not appropriate for steel scrap. It has a slip on attachment with a balanced hopper that rolls forward when loaded and unlatched. The bin then returns to an upright position and you pull the lever to unlock and release.

We can also custom fabricate a forklift tipper bin for your specific requirements. Read more about how we can work with you to develop the ideal custom steel fabrication solution for your warehouse.

Keep your workplace safe and operating effectively with Bremco forklift attachments.
