

Forklift Towball Jib

Product Code: BMP016-TB-CL2

Use your forklift to tow and lift.

The Bremco Forklift Towball Jib is a dual use forklift attachment that allows the fork operator two functions of use.

This forklift attachment is a 'slip on' style unit that has two hook locations with 3200kg load capacity and gives the operator a 569/1174mm load point from the forklift carriage face.

The second function of the Forklift Towball Jib uses a standard 50mm interchangeable hitch to assist with the movement of standard hitch trailers with a maximum ball load weight of 10% of the capacity or 300kgs dead weight at hitch point.

Keep your workplace safe and operating effectively with Bremco forklift attachments.

Specifications

- WLL: 3200kg at 2 lift points
- Maximum Towing Capacity: 3200kg
- Maximum Towball Dead Weight: 300kg
- Tyne Pockets: 142mm x 66mm
