

Forklift 6 Tonne Container Ramp – Fixed

Product Code: BMP027-60F-15 / BMP027-60F-18

Manufactured in our Australian Factory

Bremco's forklift container ramp (fixed) has been designed with a fixed frame as an alternative to our bi-fold ramp. This unit is fitted with pockets on each side to allow side shifting to the container door access.

The fixed forklift container ramp comes in:

- 1500mm length
- 1800mm long model

The 1800mm has been particularly designed to enable pallet trucks access to standard shipping containers.

We can also custom fabricate a forklift container ramp for your specific requirements. Read more about how we can work with you to develop the ideal custom steel fabrication solution for your warehouse.

Specifications

- WLL: 6000kg
- Tyne Pockets: 142mm x 66mm
- Tyne Pocket Centres: 515mm
