

Fork Gas Cylinder Cage (Six Cylinder Storage)

Product Code: BMP048-c

Safely store your gas cylinders.

The Bremco Fork Gas Cylinder Cage is built for strength and durability and holds gas bottles upright safely.

Standard features include:

- A lockable solution in mesh that promotes convenient identification of its contents.
- Hinged and locking lid, placards, and a fully open gate section.

Choose between six (6) cage or twelve (12) cage options:

- The **BMP048C** holds 6 x 18kg fork gas cylinders (image shown on this page)
- The **BMP048D** is double the capacity. It holds 12 x 18kg fork gas cylinders upright safely.

We can also custom fabricate a fork gas cylinder cage for your specific requirements. Read more about how we can work with you to develop the ideal custom steel fabrication solution for your warehouse.

Keep your workplace safe and operating effectively with Bremco cages.
