

Forklift Bucket Attachment

Product Code: BMP049

Manufactured in our Australian Factory

The Bremco Forklift Bucket Attachment converts a standard forklift into a front end loader with this simple attachment. This unit can be safely operated from the driver's seat of the forklift.

With a lever and chain there is no hard labour on the user of our bucket attachment.

We can also custom fabricate a forklift bucket attachment for your specific requirements. Read more about how we can work with you to develop the ideal custom steel fabrication solution for your warehouse.

Keep your workplace safe and operating effectively with Bremco forklift attachments.
