

Order Picking Cage

Product Code: BMP050

Use our cage to reach new heights.

Pick and pack goods safely at heights with the Bremco Order Picking Cage.

This cage is manufactured to suit electric stock pickers only and allows the operator clear and safe access. This is a safe alternative to a standard timber pallet. Chain locks are provided to attach to the stock picker

We can also custom fabricate an order picking cage for your specific requirements. Read more about how we can work with you to develop the ideal custom steel fabrication solution for your warehouse. Keep your workplace safe and operating effectively with Bremco forklift attachments.

Specifications

- Designed for use on electric stock pickers
- WLL: 500kg
- Tyne Pocket Centres: 550mm
