

Medium Warehouse Trolley

Product Code: BMP061

Use your forklift to reach new heights.

Bremco's BMP061 medium warehouse trolley is a conveniently sized unit that allows bulk picking of orders. The Trolley is manufactured with a sturdy steel frame and heavy mesh panels.

We can also custom fabricate a medium warehouse trolley for your specific requirements. Read more about how we can work with you to develop the ideal custom steel fabrication solution for your warehouse.

Keep your workplace safe and operating effectively with Bremco warehouse trolleys.
