

Crane Lift Man Cage With Roof

Product Code: BMP068-L

Use your crane to reach new heights.

The Bremco Crane Lift Man Cage with Roof is designed by our Engineer in strict accordance with Australian Standard AS1418.17. It allows a maximum of two people to be lifted using an overhead crane system. Bremco's Man Cage has a working load limit of 500kg and is manufactured with a standard four point lift, and harness attachment points to meet all safety requirements. 4-Leg Chains are included.

All units are tested, tagged and compliance plate and serial number attached. All Bremco crane lift attachments are also proof load tested in accordance with AS4991.

We can also custom fabricate a crane lift man cage for your specific requirements. Read more about how we can work with you to develop the ideal custom steel fabrication solution for your warehouse.

Keep your workplace safe and operating effectively with Bremco crane attachments.
