

Bremco's BMP090 Heavy Duty Economy Jib is designed with a working load limit of 5000kg at 860mm and is a resilient heavyweight alternative to the BMP016.

Convert your forklift into a lifting and hoisting device for a great way to transport heavy duty awkward items around the workshop or yard.

Bremco's Heavy Duty Economy Jib is a fully certified long-lasting lifting device and comes standard with a compliance plate attached.
