

Forklift Short Extension Jib

Product Code: BMP093

Convert your forklift for some intense lifting

Designed for the transportation of long loads, this is because the load can be slung at greater centres than with a fixed jib due to the manual extension.

We can also custom fabricate a forklift short extension jib for your specific requirements. Read more about how we can work with you to develop the ideal custom steel fabrication solution for your warehouse.

Keep your workplace safe and operating effectively with Bremco forklift attachments.

Specifications

- WLL: 3000kg @ 1000mm HLC
- Tyne Pockets: 190mm x 65mm
- Tyne Pocket Centres: 550mm
